### Education

### **Northeastern University**

B.S. Computer Engineering and Computer Science, Class of 2019 EECE Student Advisory Board Member

#### Relevant courses:

Object Oriented Design
Algorithms and Data Structures
Computer Systems
Networks and Distributed Systems
Web Development
Linear Algebra / Differential Equations
Calculus 2

#### The Haverford School

Class of 2014, Honors Student

# Languages

Go

Python

Javascript

Java

C++

HTML + CSS

### Frameworks

Node.js + Express.js React + Redux Flask

TensorFlow

## Infrastructure / Tools

Amazon Web Services Jenkins Git

Adobe Creative Cloud

### Databases

MongoDB MySQL

# Experience

Tesla (September - December 2018)

Software Engineering Co-op - Applications Engineering

**DigitalOcean** (June - August 2018)

### Software Engineering Intern - Storage

Created an infrastructure management console that enabled identification of customer facing performance issues and underlying storage infrastrucure problems in real-time.

Designed and implemented Go microservices to monitor global Block Storage cluster status.

Autodesk (June - August 2017)

### Software Engineer Intern - Product Security

Led the design and development of a dynamic web application that aggregated security vulnerability data from Autodesk's entire portfolio of products.

Surfaced valuable metrics that enabled product teams to track compliance with security non-negotiables.

Implemented a fully automated Continuous Integration and Deployment pipeline to facilitate best agile practices.

### FirstFuel Software (2016)

#### Software Engineer Co-op - Energy Analytics

Developed an energy analytics platform that enabled dynamic energy savings estimates and advanced data visualizations.

Built a complex data cleanup model that improved workflow and reduced building audit time by 10-12%.

## Projects

### **HQ Trivia Bot**

Developed a real-time bot that predicted the answers to live trivia questions with 90% accuracy.

#### Gradr

Designed and deployed a grade tracking platform which allows students to track their academic progress.
