Education

Northeastern University

B.S. Computer Engineering and
Computer Science, Class of 2019
EECE Student Advisory Board Member

Relevant courses:
Object Oriented Design
Algorithms and Data Structures
Computer Systems
Networks and Distributed Systems
Web Development

The Haverford School

Class of 2014, Honors Student

Languages

Python
Javascript
Java
C++
HTML + CSS

Frameworks

Node.js + Express.js
React + Redux
Flask
TensorFlow

Infrastructure / Tools

Amazon Web Services
Jenkins
Git
Adobe Creative Cloud

Databases

MongoDB
MySQL

Experience

DigitalOcean (Summer 2018)
Software Engineering Intern - Storage Team

Autodesk (Summer 2017)
Software Engineer Intern - Product Security
Led the design and development of a dynamic web
application that aggregated security vulnerability data from
Autodesk's entire portfolio of products.

Surfaced valuable metrics that enabled product teams to track
compliance with security non-negotiables. Worked to design
and develop secure applications and smart security processes.

Implemented a fully automated Continuous Integration and
Deployment pipeline to facilitate best agile practices.

FirstFuel Software (2016)
Software Engineer Co-op - Energy Analytics
Developed a energy analytics platform that enabled real-time
energy savings estimates and advanced data visualizations.

Built a complex data cleanup model that improved workflow
and reduced building audit time by 10-12%.

Nixon Uniform Service & Medical (Summer 2014)
Network and Infrastructure Engineering Intern
Managed an extensive network mapping project to identify
areas of vulnerability and single points of failure.

Projects

HQ Trivia Bot
Developed a real-time bot that predicted the answers to live
trivia questions with 90% accuracy.

Gradr
Designed and deployed a grade tracking platform which
allows students to track their academic progress.
